- \*1. The trade name is the name of the Product found on the pesticide label.
- \*2. This is the amount of Active Ingredient shown on the label. It is always shown as a percent on the label, (e.g. 40.4%), but might also be shown in terms of pounds per gallon below the Ingredient Statement (e.g, 4 pounds Glyphosate per gallon). You may enter either, but be sure to express either as Percent (%) or pounds per gallon (#/Gal)
